

LA VAN MALLORCA
SUSTAINABILITY PROMISE

2024

La Van Mallorca is deeply committed to sustainability, with a promise of using Km0, or locally sourced, products. This not only ensures the freshness and quality of their offerings, but also supports local businesses and reduces environmental impact from transportation. By choosing to source locally, La Van Mallorca is actively investing in the local economy, helping to create jobs and support local agriculture. They are conscious of their impact on the local environment and are actively working to reduce waste, lower their energy consumption, and use sustainable materials wherever possible.

-

Our commitment to sustainability goes beyond just our products—it's a core part of our business model, affecting every business decision we make.

-

Keep up to date with our projects as we begin to develop and incorporate this side of our business in greater detail through collaborations with non-profits and holding our own events to raise awareness.
